

My Portfolio

A Summary of My Architecture Work

About Me

I'm Seyed Majid (Ramtin) Mehravar and 38 years old, I'm Iranian and lives in Tehran. After finishing my academic university course, I always try to keep up to date knowledge in the field of architecture in all sections as well as gaining experience in the design of residential, office, villa and the like. This has provided the opportunity for my clients to meet the different tastes of their design needs for the interior and exterior of their projects.

I do my job freelance for 2 years with my brand which is **R Design Studio**. In this regard, by accurate information and demands, provided by the client, as well as considering the principles and rules of architecture and considering the conditions and requirements of the project, I act in the most optimal way to design.

Education

- Higher Educated Architecture Course (Shahid Beheshi Tehran National University)
- Higher Educated Interior Design Course (The Interior Design Institute of Australia)
- Higher Educated Interior Design Course (IDI Center in Iran by AIA Approval Member)
- Harmony & Contrast Visualization Workshop Course (IDI Center in Iran by AIA Approval Member)
- Texture & Color Visualization Workshop Course (IDI Center in Iran by AIA Approval Member)

Software

- Autocad
- 3ds Max
- V-Ray
- Vantage (Real Time)
- Twin Motion (Real Time)
- Lumion (Real Time)
- Unreal Engine (Real Time)
- Photoshop
- Word, Excel, Power Point, Outlook

Specialty

- Interior Design, Facade Design, Landscape
- 3D Modeling, Rendering, Animation (Real Time)
- Kitchen Cabinet Design
- Concept Designer
- Material Board
- Texture & Color
- Furniture Design

Artificial Intelligence

- Midjourney (Discord)

Certificate & proof

Interior Design Institute

On the recommendation from the Board of Examiners of The Interior Design Institute

Seyed Majid (Ramtin) Mehravar

has successfully completed a course of studies in both theory and practice in Professional Interior Design and has fulfilled the required examinations as set by the examining body.

The above named is hereby awarded a:

DIPLOMA OF INTERIOR DESIGN

Signed by the Board of Examiners

of the Institute this 20th day of July 2022

Josephine van Damme

Anthony Mondello

Professional Training Certificate

Certificate No: PTC-01764-22870

This is to certify that

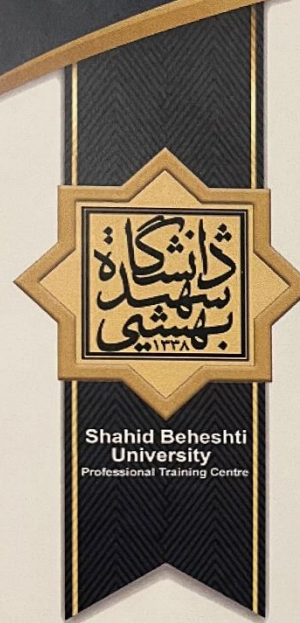

Mr./Mrs.**SEYED MAJID MEHR AVAR**

National ID/Passport No. **0063833735**

Has successfully completed the short course training entitled:

Interior Architecture

on March 2022 for 320 hours with GPA 16.96 out of 20.

Description about what I'm doing

1. Get all information and requirement and interest of my customer , analysis it (for Facade design or etc) and just for interior design In case if necessary i made mood board (Photoshop or Powerpoint)
2. Initial Site Plan of project based on site measurement (Autocad)
3. Design concept of each zone in project considering the element and principle of architecture
4. 3D modeling and get test render for each zone (3ds Max – Vray)
5. Final high quality render create by v-ray or vantage motor render
6. Choose material and lighting and put them in renders (or made material board)
7. In rendering normally used compatible furniture with design except customer emphasis on special model
8. In this stage prepared presentation file include : site plan , renders , alternatives , RCP plan or anything need to show customer according to their request (powerpoint & PDF)
9. Also for presentation if for customer possible for meeting i used Real Time show the space and moving in all space (Vantage or Twin Motion)
10. After a time i get comment of my customer if they need some changes in design and again sent them final version
11. At the end i get written approval for final design version and sent all data to head of contractor who supposed to do construction.
12. It depends on form of contract i did supervision on my design during the construction process till end and if necessary to change my design in some space because of executive problem after interact between contractor and client the changes are done.

Facade Design

Material Boards

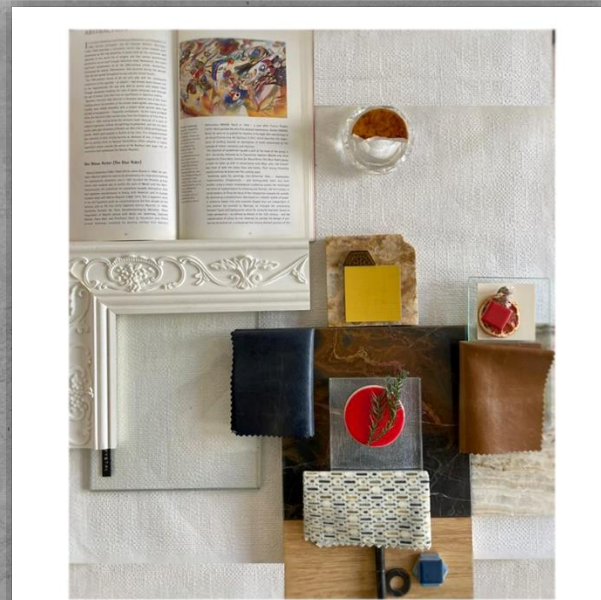

Walter Gropius and Mies van der Rohe in 1925, in an atmosphere of extreme tension, the Bauhaus was forced to relocate from Weimar to Dessau and then from Dessau to Berlin. Gropius resigned in 1929 and was replaced by Ludwig Mies van der Rohe (1886-1969), but when Hitler came to power in 1933 he in turn was forced to resign. The Bauhaus was closed down and turned into a school for Nazi officers. The works of Kandinsky (1879-1944) and Piet Mondrian (1897-1944) were condemned as 'degenerate art'. Klee moved to Switzerland and then Switzerland, and the artist Kandinsky to Paris, where he continued to paint abstract works of geometry. Many had to go to the death camps. Kandinsky, Walter Gropius and Mies van der Rohe.
